

Fatigue Management Workshops **REGISTRATION FORM**

The Canadian Society of Safety Engineering (CSSE) – Central Alberta Chapter is pleased to be in partnership with the Red Deer Construction Association to offer two fatigue management workshops in Red Deer. The first workshop is focused towards Managers/Supervisors/Safety Professionals and the 2nd workshop is focused towards frontline workers (attendance certificates will be issued for this workshop). Our presenter, Susan Sawatzky, speaks internationally on the topic of sleep health & wellness and fatigue safety in the workplace. Fatigue safety is one of today's hot safety topics so please join us to learn how fatigue impacts a workplace and the current best practices used to effectively manage fatigue risk.
