

WHMIS 2015 Train-the-Trainer

Classroom Course

This one-day course is designed for company trainers who are responsible for providing WHMIS worker education and site-specific training.

Course Topics

- Overview of WHMIS 2015
- WHMIS 2015 worker education (generic)
- WHMIS 2015 site-specific training requirements
- Overview of WHMIS programs and planning considerations
- Resources for trainers

Certification

This course has a written test and a skills check component. Participants must achieve a minimum score of 70% on a closed-book written test and complete four skill checks for course certification. Certification allows participants to use ACSA's materials to deliver WHMIS worker education at their work sites. Trainers must recertify in this course every three (3) years.

Prerequisites

None required at this time.
